

MICROBE-LIFT®

EARTH FRIENDLY PRODUCTS FOR THE HOME

Septic Systems • Cesspools • Drains • Indoor Surfaces

Septic System & Cesspool Treatment

The finest septic tank product available. Period!

PROTECTS AND RESTORES DRAIN FIELD FLOW

KEEPS SYSTEMS FREE FLOWING * REDUCES SEPTIC ODORS

MICROBE-LIFT Full Spectrum anaerobic bacteria is manufactured under a proprietary process which has been verified by independent laboratory tests to contain the highest levels of anaerobic bacteria. All bacteria contained in this product are derived from 100% natural sources.

Septic Tank Maintenance

- Septic solids (sludge) must be pumped out periodically.
- Anaerobic bacteria must be replenished due to the bacteria-killing products used in the household.
- Microbe-lift restores and boosts the necessary bio-enzymatic action in your system improving overall performance.

MICROBE-LIFT'S 100% fully matured anaerobic bacteria goes to work in situations where there is no air present (your septic system). It is harmless to man, animal, and plant life, and is 100% safe to groundwater.

- Guaranteed to Digest Grease, Fats, Oils and Tissues
- Improves System Performance
- Restores and Protects Drain Field Flow

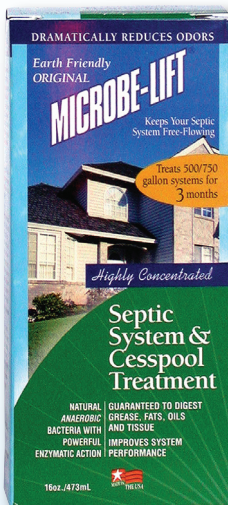

Colonizes:

- Lateral Lines
- Holding Tanks
- Distribution Boxes

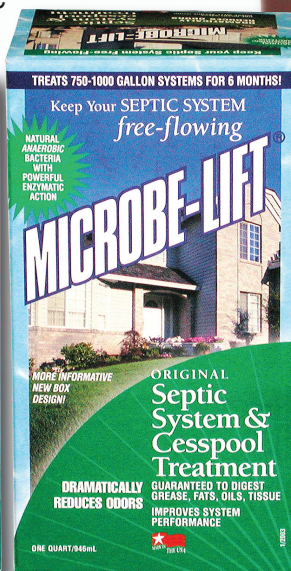

Note: MICROBE-LIFT/ Liquid Septic Treatment will exhibit a foul sulfide smell when opened. However this unique "safe" bio formulation is extremely effective in eliminating septic odor following its application. The odor is the product's preservative system. The odor will dissipate quickly and will not harm you. Use bathroom fan or open window to assist in rapid odor reduction.

Shelf Life: 2 years unopened, 1 year opened.
Store in a cool place.

FREE shelf display included in all 12 pc. 16 oz. products!

1 Pint / 473mL
Item #MLST16
UPC #097121663450

1 Quart / 946mL
Item #10Q
UPC #097121123459

1 Gallon / 3.785L
Item #10G
UPC #097121123466

Deep cleans and deodorizes fixtures and floors
Eliminates odors
Very economical
Pleasant fragrance

16 oz. / 473mL
ITEM #MLHSCP
UPC #097121200501

SEPTIC SYSTEM & CESSPOOL TREATMENT / DRY FORMULA

WHY FLUSH A PRE-MEASURED POWDER PACK?

- Cuts cost by eliminating the chance of using excess product
- Eliminates handling and dusting like other powdered products
- Unique packet material will keep from sticking together in high humidity
- **Dissolves within five minutes after flushing**
- Easy pre-measured packets
- No safety concern of powder on hands
- Costs only pennies a day
- Safe for all pipes and systems
- Contains no acids or caustics

In most microbiology ecosystems, the active unit is not a single bacteria, but rather a combination of two or more types living in close symbiotic relationship. Every single Powder Pack is a special blend of billions of friendly and helpful bacteria and enzymes. Powder Packs will help prevent backups, slow drainage and malodors. Their monthly use will help maintain your system and will bring it to its maximum capacity. **MICROBE-LIFT/Powder Packs** are a part of a revolution that is occurring in microbiology. The friendly and beneficial bacteria found in them will provide positive effects in the bioremediation of the organic waste in your septic system.

DRAIN CLEANER AND MAINTAINER

MICROBE-LIFT/DCM's highly specialized bio-enzymatic formulation will consume organic matter (grease, oil and fatty foods) that cause blockages and unpleasant odors. Your drains will become free-flowing without caustics or acids that may cause damage to pipes and septic systems. The bio-enzymatic formulation in **MICROBE-LIFT/DCM** is manufactured under a proprietary process which has been verified by independent laboratory tests to contain the highest levels of bio-enzymatic activity. The friendly bacteria contained in this product are derived from 100% natural sources. **MICROBE-LIFT/DCM** goes to work immediately on contact to deodorize and clean drains and is approved for use in all mainland states, even those that require additional authorization.

- Environmentally friendly
- Safe for all pipes, drains and fittings
- Safe for garbage disposals, septic tanks and cesspools
- Contains added lipase, cellulase, protease, and amylase enzymes

Note: Heavy doses of bleach, chemicals and caustics will reduce any bio-enzymatic activity from this product that is working in your system. Normal clothes washing with bleach is okay.

HARD SURFACE CLEANER FOR BATHROOMS

MICROBE-LIFT ELIMINATES UNPLEASANT ORGANIC ODORS AT THEIR SOURCE.

DIRECTIONS: Normal soils: dilute 2-3 oz. per gallon with warm tap water. Severe soils: dilute 3-4 oz. per gallon with warm tap water. Spray a heavy mist to wet the entire surface. Allow the dilution to penetrate. Odors will subside as the bio-enzymatic activity digests the organic matter.

IN BATHROOMS: This solution will naturally bio-clean commodes, tile walls, showers, tubs, and floors. This bio-enzymatic formulated bathroom cleaner was developed to be 100% biodegradable. The bio-enzymatic formula will clean all bathroom and other surfaces not harmed by water.

MICROBE-LIFT/DRAIN CLEANER & MAINTAINER AND HARD SURFACE CLEANER

12 PIECE COUNTERTOP DISPLAY - 6 OF EACH PRODUCT

16 oz. / 473mL
ITEM #DCMHSC16X12
