

# NEW Formula for 2011

## Ready-to-Use Concentrate

HERBAL WATER CONDITIONERS  
ALL-NATURAL EXPELLANTS FOR A  
NATURAL AQUATIC ENVIRONMENT!

### SABBACTISUN™

Effective against these

#### BACTERIAL DISEASES

- Bacterial dropsy • Fungus • Milky skin
- Fin/tail rot • Bulging eyes • Ulcers
- Mouth rot • Raised scales

**MICROBE-LIFT®/SABBACTISUN™** is a unique, herbal, immune-enhancing stimulant which reduces bacteria and fungal infections in fish showing symptoms such as: fin and tail rot, ulcers, bulging eyes (Exophthalmia), milky skin, raised scales, mouth rot, fungus and dropsy (ascites). **MICROBE-LIFT®/SABBACTISUN™** will help boost the natural immune system of the fish with no risk of building up future resistance, as can occur when antibiotics are used.

**MICROBE-LIFT®/SABBACTISUN™** will help to drive pathogenic bacteria off the fish and, without a host, ultimately results in the death of the bacteria. **MICROBE-LIFT®/SABBACTISUN™** is effective at reducing bacterial infections as well as ulcers and wounds, which often occur on Koi. Regular antibiotics may kill non-resistant bacteria, but will not heal ulcers and will leave an open wound or ulcer sensitive to re-infection. Even with deep ulcers - and in a surprising short time span - **MICROBE-LIFT®/SABBACTISUN™** additionally stimulates and accelerates regeneration of damaged tissue until no trace of the wound remains. So even if an antibiotic treatment is used, you should also use **MICROBE-LIFT®/SABBACTISUN™** to minimize infection.

**MICROBE-LIFT®/SABBACTISUN™** can be used directly in any pond and is safe for all life in and around it. It is also a great aide to use when acclimating fish to a new environment.

### PARAZORYNE™

Effective against these

#### PARASITIC DISEASES

- White spot • Costia • Flukes (gill & skin)
- Trichodina • Oodinium • Chilodonella

**MICROBE-LIFT®/PARAZORYNE™** is a unique, herbal immune-enhancing stimulant which reduces skin flukes (Gyrodactylus), gill flukes (Dactylogyrus), Ich (Ichthyophthirius multifiliis), Oodinium, Costia (Ichthyobodo necator), Chilodonella and Trichodina. Parasitic infections are characterized by symptoms such as: milky skin, flashing and heavy breathing. However, they can only be diagnosed with certainty through microscopic examination.

Naturally controlled by the fish's immune system, parasites are present on most fish in very low levels at all times. When stress levels increase, the ability of the immune system to respond to its requirement to control the natural level of parasites is directly affected. This poor response allows parasites to increase in number, thus causing any of the serious, above-mentioned health issues in the host fish. **MICROBE-LIFT®/PARAZORYNE™** supports the fish's immune system, driving off the excess parasites. Since they cannot return to the fish during that treatment, the majority of parasites will starve without a host. So although **MICROBE-LIFT®/PARAZORYNE™** does not directly kill parasites, it is ultimately responsible for their death.

**MICROBE-LIFT®/PARAZORYNE™** restores the fish's natural balance. It is not a disinfectant. It is harmless to all nitrifying filter bacteria and aquatic plants. Using chemicals can have a *detrimental effect* on the bacterial biomass of the tank/pond ecosystem. Even after a treatment, there will be some parasites present, as there will be on any healthy fish.

# 2-for-1 Special

## Save 75% over last year's prices!

Ecological Laboratories, Inc. has received a worldwide exclusive license to manufacture Sabbactisun™ and Parazoryne™ in the U.S. To kick off the new licensing agreement we are offering a "Buy One, Get One Free!" The reduced pricing now makes the highly concentrated version economically feasible for use in all ponds not only during a disease outbreak but as a preventative in the spring and fall when fish are stressed due to seasonal changes.

These two herbal treatments are a must for every pond that contains fish!

Prices are net, net and no further discounts may be applied. There are no spiffs attached to this limited promotion.

**Ready To Use Co-Packs**

**MICROBE-LIFT®/PARAZORYNE™**

**MICROBE-LIFT®/SABBACTISUN™**

#PSPAK08 - 8 oz. (236 mL.) treats 590 gal. for 10 days

#PSPAK16 - 16 oz. (473 mL.) treats 1,183 gal. for 10 days

#PSPAK32 - 32 oz. (946 mL.) treats 2,365 gal. for 10 days

#PSPAKG1 - 1 gal. (3.785 L.) treats 9,462 gal. for 10 days

#PSPAKG1 - 1 Gal.

#PSPAK32 - 32 oz.
